

ICT373 Assignment 1

Assignment Submission Notes:

1. The Assignment is to be submitted via the LMS.
2. Do not forget to press [**Submit**] after loading the assignment on to the LMS.
3. The external documentation files must be saved in MS Word (or PDF) format.

Please see the Assignment question sheet for external documentation requirements. It is your responsibility to read the assignment specification carefully. Sample test data and results from a program run can be copied on to the Word file (copy from the program output window and paste to Word file) and submitted as part of the external documentation.

4. Compress your files in a .zip file before submitting. Make sure that all necessary files are submitted so that the programs can be viewed, compiled and run successfully. Note that the whole project folder can be zipped.

5. Your User Guide for each question should include clear instructions on how to access, compile and run each program.

6. Your submission must include a completed Assignment cover sheet.

7. Extensions:

- i.) can only be given by the unit coordinator;
- ii.) can only be given prior to the due date;
- iii.) can only be given in exceptional circumstances and when there is a documentary evidence of an unexpected event causing problems;
- iv.) will not be given in the case of disk crashes etc.: you must back up your data;
- v.) will not be given because you did not keep a backup of working code and currently have non-working code.

Ferdous Sohel
ICT373 Unit Coordinator
